

ABOUT KIDS WEST.

KIDS WEST was founded in 1991 to raise much needed funds for the Paediatric Wards in Sydney's Western Region. Volunteers of Kids West include community leaders from NSW Police, Ambulance and Fire Brigade, Doctors and Nurses. This places Kids West in a unique position to raise funds and ensure that those funds are distributed to areas needing the most help.

MAKE A REAL DIFFERENCE WHERE IT'S NEEDED.

Funds raised have been used to support Westmead, Blacktown, Mount Druitt, Nepean and many regional hospital paediatric and intensive care wards. Also safety awareness and education in many schools.

MONEY HAS BEEN USED FOR THE FOLLOWING:

- purchasing of equipment such as intensive care beds, monitors for burns victims, specially designed wheelchairs, play equipment
- sponsorship of breakfast programs in schools where children have no opportunity for breakfast
- sponsorship of sporting teams and teams compiled of intellectually disabled children
- inaugural sponsors of the Shaken Baby Project at Westmead, educating parents on the dangers of shaking their baby and how to cope with many stressful situations
- support of the Adolescent Unit at Westmead Hospital providing guidance and support to those suffering from Anorexia Nervosa
- support of research into illnesses such as Childhood Cancer, Cystic Fibrosis, Asthma and Epilepsy.

For many of us the items our heart desires is only limited to the number of catalogues we can get our hands on. The biggest question of the day will be “do I choose a rustic bed or post modern for my son or daughter’s bedroom”?

There are some of us who are less fortunate however. What their heart desires is to give their children some dignity and quality of life. Their children are suffering from illnesses like Leukemia or Emphysema. Their question is how will the hospitals of Sydney’s west be able to afford an LTV Portable Ventilator so they can take their child outside and just breathe.

In 2011 Kids West is planning to raise one million dollars for these children. Open your heart to a child suffering. By giving generously you will make a world of difference to a child fighting for their life. Your proceeds will be used to purchase much needed life saving equipment and offer support programs for the children’s wards of Sydney’s west.

Visit www.kidswest.org.au or call us on 02 9893 8808 and donate to deliver from your hand to their hearts. Every dollar raised gives a kid’s heart a chance to beat.
